Charging station

supraCharger MULTI/TOUCH

supraCharger MULTI/TOUCH

With our easy-to-use charging station, you have the possibility to charge and store 20 audio guides at the same time. The charging station is also used to deploy the content for the visitor tours onto the devices. The supraGuide MULTI and TOUCH can also be charged together.

The language selection of the visitor tour is easily activated via the intuitive menu navigation on the built-in touch screen.

A multi-coloured display on the charging slot shows the charging status of the devices. You can easily increase the desired number of slots by simply lining them up.

Technical specifications

Dimensions	(empty) 395 x 220 x 37 mm
Dimensions	(full) 395 x 220 x 170 mm
Weight	(empty) 2.75 kg
Weight	(full) 5.45 kg
