

supraGuide **MULTI**

Multi-talent with
tour guide function

supraGuide MULTI

The supraGuide MULTI is a versatile, multifunctional device that lets your visitors use remote control, autostart reception or a keypad to design their visit according to their interests. Audio clips, engrossing films and images in different languages can be presented on the color display for more in-depth information.

The combination of touch screen and keypad with large digits and Braille print provides a user-friendly and accessible experience for all target audiences.

The supraGuide MULTI also has an optional group guiding function, enabling it to serve as a flexible tour guide within the same system.

Key features in brief

- for indoor and outdoor use
- rugged and reliable
- lightweight and ergonomic
- multi-language display
- keypad and high-contrast display for greater accessibility
- optimal sound transmission with integrated loudspeaker
