Special offer for versatile tonwelt media guides

Create a new interactive on-site experience for your exhibition and inspire your visitors with exciting and visitor group-specific content on reliable and low-barrier media guides from tonwelt. As a full-service provider, we combine creative content production with reliable hardware and software solutions for sustainable and exciting knowledge transfer. Benefit from more than 25 years of experience in the creation and production of multilingual content for the most important art and cultural institutions in Europe.

With tonwelt audio and media guides, you give your visitors a personally curated key to independently explore the highlights of your exhibition. But the media guides are also a real added value for guided tours, as supraGuide MULTI and TOUCH can also be used as a group tour system. Enhance your guided tours by integrating sounds, images, videos or slideshows on the visitor devices. supraGuides always come with a comprehensive infrastructure with access to the powerful supraCMS, including statistics and a station for storing, and charging as well as deploying the content to the devices. Take advantage of the unique opportunity of generous discounts to switch to long-lasting, professional visitor guiding systems!

Multi platform for supraGuides and BYOD (App & PWA)

Edit your content easy in no time with supraCMS
